

Introducing the Vetralla 1800

Expanding the iconic, ever so popular Vetralla collection, we're delighted to introduce an even larger model which is a generously sized, double-ended bath that transforms any spacious bathroom with a spa-style centrepiece.

At 1778mm in length, and 755 mm wide, the Vetralla 1800 freestanding bath boasts all the same ergonomic and design qualities that our bathers love - but with a larger bathing well.

Drawing its name from the charming Italian town of Vetralla in the Lazio region of Italy, the original Vetralla was first introduced by Victoria + Albert's in-house design team in 2017.

The expansion of the collection continues to embody the brand's devotion to beautiful and comfortable design

Design qualities:

- This bath does not have a void, and is deep and double-ended
- Standard Quarrycast™ white Gloss or Matt option available
- Recommended kit : Kit12PC+Kit12/13P
